

Activity: **How Does Your Garden Grow?**

Skill/Objective: **Measure Inches & Centimeters**

Directions:

1. Get a background paper for your garden.
2. Use the construction paper strips to measure and cut stems for your flowers. The length of each flower stem is at the bottom of the page.
3. Glue each stem above its measurement. Then draw a flower top for each stem.
4. Last, measure each stem again in centimeters and write the lengths under each flower.
