

Activity: How Many Ears On A Kangaroo?

Skill/Objective: Make a table/interval counting

Directions:

1. Get a blank Kangaroo paper.
2. Read the question for each chart.
3. Fill in each chart with the correct numbers. Use cut outs to help you find the answers. (If there are no cut outs for your question, you may get a scrap paper and draw small pictures to help you.)
4. If you finish early, get a blank paper and create your own chart. Some suggestions for items you may want to use are:

How many legs on how many shoes?

How many cents in how many nickels?

How many tires on how many cars?

How many crayons in how many 8-packs?
