likely, less likely, equally likely, unlikely, certain, or impossible

Today we will be looking at probability. We will be using the following terms to describe the chances of something happening:
Likely, unlikely, more likely, less likely, equally likely, certain, or impossible.

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **impossible** that we will hit red when we spin the spinner because we don't have any red on the spinner. Things are **impossible** when there is no chance that something will happen.

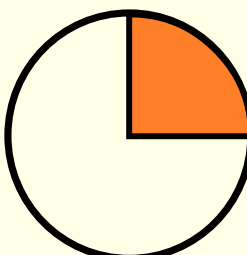

impossible

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **unlikely** that we will hit orange when we spin the spinner because we have less orange than white. Things are **unlikely** when we have less.

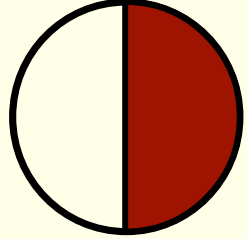

unlikely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **equally likely** that we will hit red when we spin because we have exactly the same amount of red and white. Things are equally likely when the amounts are **equal**.

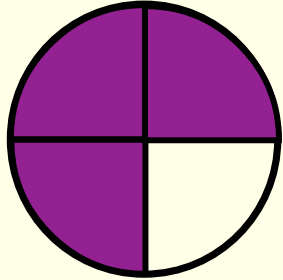

equally likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **likely** that we will hit purple when we spin because we have more purple than white. Things are likely when we have more.

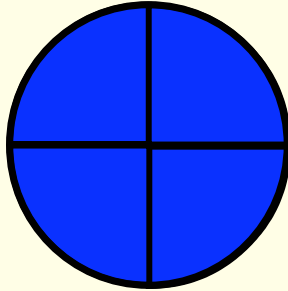

likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **certain** that we will hit blue when we spin because that is the only color on the spinner. Things are certain when we have no other choices.

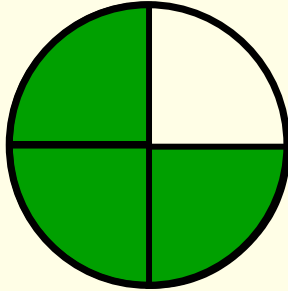

certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **more likely** that we will hit green when we spin it because that is more green than other colors on the spinner.

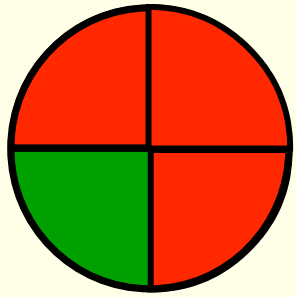

more likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

It is **less likely** that we will hit green when we spin it because that is green than other colors on the spinner.

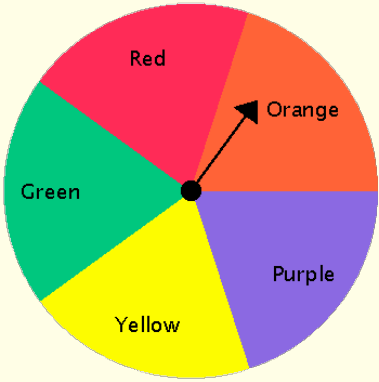

less likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

What are the odds that Joey will spin the spinner and get the color **red**? Drag the correct word/s to the line.

impossible unlikely equally likely likely certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

What are the odds that Anna will spin the spinner and hit a vowel? Drag the correct word/s to the line.

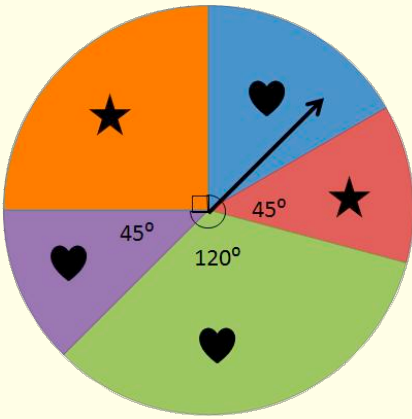

impossible unlikely equally likely likely certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

What are the odds that Selina will spin the spinner and get the color **♥**? Drag the correct word/s to the line.

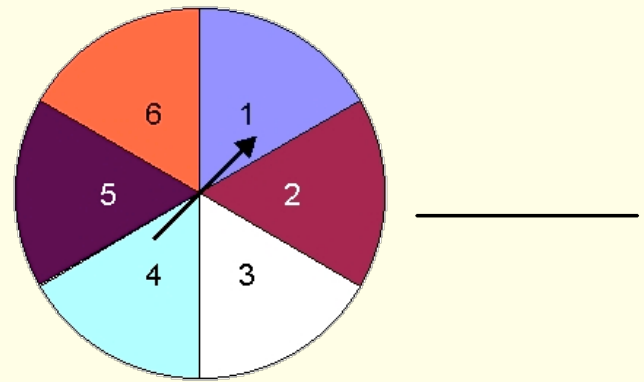

impossible unlikely equally likely likely certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

What are the odds that Pedro will spin the spinner and get the number 7? Drag the correct word/s to the line.

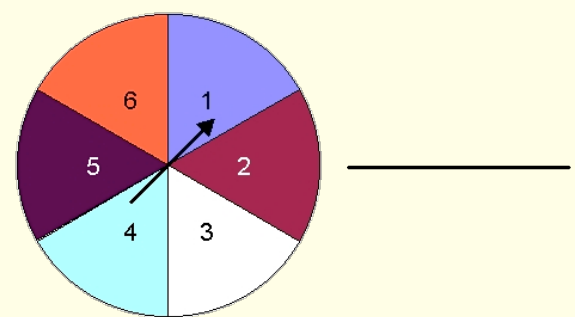

- impossible
- unlikely
- equally likely
- likely
- certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

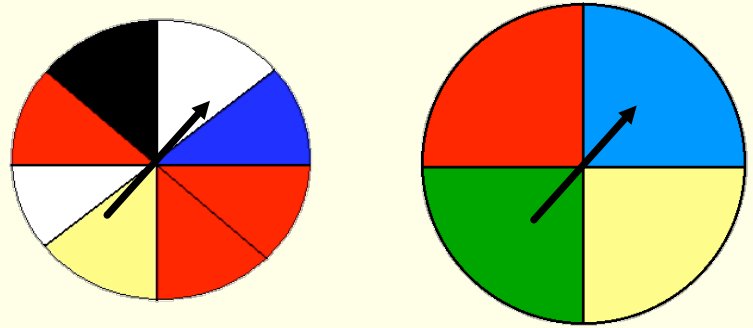

What are the chances that Michael will spin an odd number? Drag the correct word/s to the line.

- impossible
- unlikely
- equally likely
- likely
- certain

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag the word **more likely** under the spinner in which Eric would be **more likely** to hit the color red.

- less likely
- more likely

likely, less likely, equally likely, unlikely, certain, or impossible

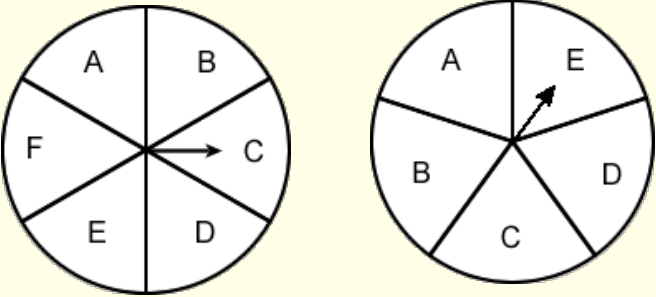

likely, less likely, equally likely, unlikely, certain, or impossible

Drag the word **less likely** under the spinner in which Sonya would be **less likely** to hit the color yellow.

- less likely
- more likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag the word **less likely** under the spinner in which Shane would be **less likely** to hit the letter A. Drag the word **more likely** under the spinner in which Shane is **more likely** to hit the letter A.

less likely

more likely

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **impossible** to spin an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **equally likely** to spin an A and a B.

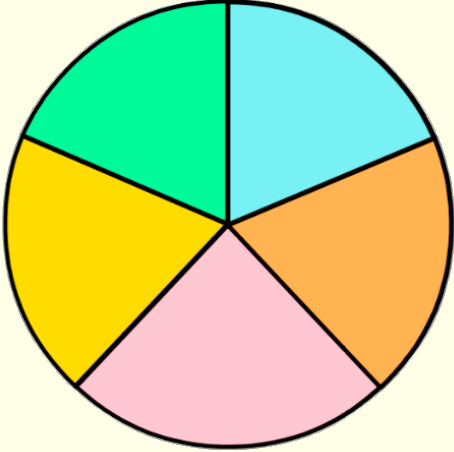

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **certain** to spin an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **more likely** that the spinner will land on an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **less likely** that the spinner will land on an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **likely** that the spinner will land on an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible

likely, less likely, equally likely, unlikely, certain, or impossible

Drag letters onto the spinner so that it will be **unlikely** that the spinner will land on an A.

A B C

likely, less likely, equally likely, unlikely, certain, or impossible
