

## Pocket Chart Schedule Cards

This file contains 27 cards (2 per page) that can be printed on card stock and laminated. They can be used in a pocket chart to list the schedule of the day. Each card has a title and picture so younger students can make word/picture associations. These are the most common activities found in the primary grades. A sample card is shown here. All of the cards have similar style clip art. This makes a cute display, helps the students know what to expect throughout the day and as an extra bonus I find that students use them throughout the day to help them spell in their journals.

This file contains the following cards:

Spelling  
Movie  
Field Trip  
Book Fair  
Play Practice  
Party  
Library  
Class Pictures  
D.E.A.R.
