

THE MICROSCOPE

Tatum

Introduction

- This presentation is just an outline of what you will be accomplishing in science over the next two periods. It will be your job to research for more information.

Tatum

Topics of Discussion

- The three topics you will cover are:

- History: **Tatum**

- Parts:

- Care:

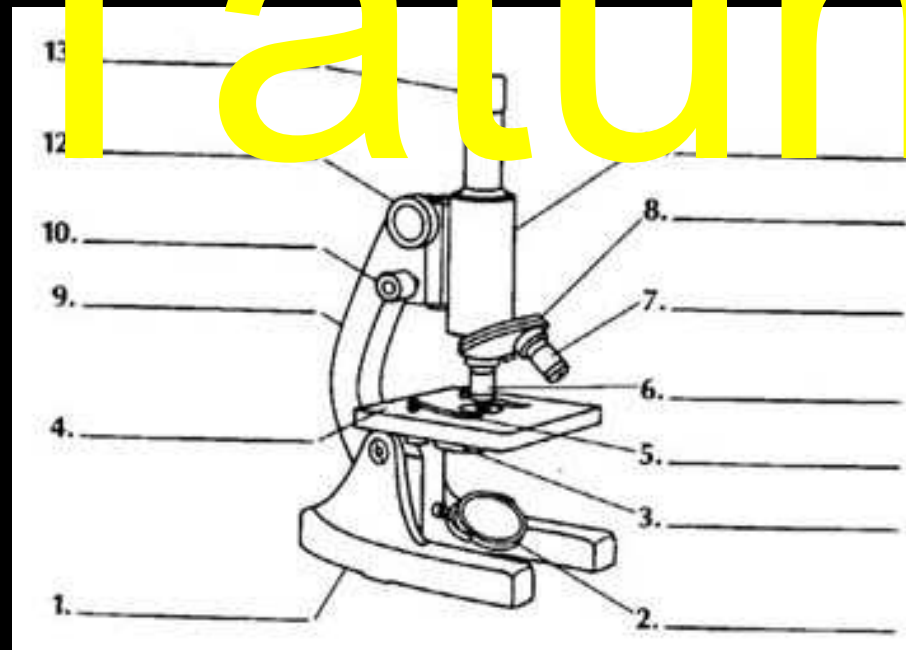

History of the Microscope

- Give two or three points for each of these scientists.
- Janssen – (father and son)
- Anthony Leeuwenhoek
- Robert Hooke

Tatum

Parts of the Microscope

- Label the microscope diagram and give the function for each part.

Microscope Care

- You need to take a look at four things.
- 1. Transporting
- 2. Handling and Cleaning
- 3. Storage
- 4. Clean-up

Tatum

Due

- You will have two science periods!
- No more.
- Your work will be checked.
- Expect a quiz after that!.
- You must know the parts, functions and how to take care of the microscope before you use it
